

## Philmont Medical 2017

Rev 12/5/2015

Each participant going to Philmont in 2017 will need to have a medical examination within twelve (12) months of July 2017. Alex Fessler will collect these completed medical forms one week before we leave for Philmont. This letter and medical forms can be found on the Troop web site at the Philmont 2017 web page.  
(PrimeTroop.org)

Each participant will need to complete **Part A and B**.

**Part C** is the medical exam that is required for all participants. It is to be completed and signed by a certified and licensed health care provider – physician (MD or DO), nurse practitioner, or physician assistant.

The High-Adventure Risk Advisory is to be reviewed by all participants. It must be shared with the examining health care provider before completing Part C.

Remember that all 6 pages of Part A, B, C and the High-Adventure Risk Advisory are needed at the time of your medical examination.

Each participant must have a tetanus shot within the past 10 years.

A copy of the participant's health insurance card (both sides) must be stapled to the top of the medical forms.
